

Figure 6: Track B - Predicted Metabolite-Protein Binding

EXPLORATORY - Requires Experimental Validation

Strong binding
threshold

Track B

Formononetin
↔
Kinase

-7.6 kcal/mol

Daidzein
↔
FNR

-7.8 kcal/mol

⚠ CAUTION:

These predictions are HYPOTHETICAL
and require experimental validation
(SPR, ITC, MST, genetic studies).

Track B is INDEPENDENT from Track A
and does NOT validate GNN predictions.

Binding Affinity (-kcal/mol)
